

Silicon Valley: The Empire Of The C*ock-Holsters; How the Gay Mafia Tried To Take Over the DNC!

It's not that anybody cares about what they do in the bedroom, it is that they are close-minded, black-listing, reverse-misogynist pricks who treat everybody else terribly. The biggest venture capitalists and the heads of Google and Facebook are gay but they lie about it and hire fake wives. If they lie about that and bribe Senators, what else do they lie about?

The issue is not that they are actual Cock-Holsters, it is that they have created a criminally corrupt business empire that uses bribery, stock market fraud and black-listing collusion to run their Mafia.

The Silicon Valley Gay Mafia uses their owned and controlled Google, Facebook, Twitter, Netflix and Amazon to spy on Americans, manipulate Americans news impressions (ie: only .02% of Americans want sex changes, but 70% of Silicon Valley-controlled News Media talks about trans-gender issues as if all of America was worried about it). Their biggest crime: They bribe West Coast Senators.
