

PUBLIC INVITED TO PARTICIPATE IN THE GOOGLE HEARINGS IN SAN FRANCISCO ON GOOGLE'S SOCIALLY DAMAGING BUS SYSTEM

Recently the San Francisco Board of Supervisors revisited San Francisco's new Commuter Shuttle Program, which regulates commuter shuttles commonly known as "Google buses." The new legislation faced a massive out-cry, from the public opponents of the elitist shuttles. The Board decided to postpone this issue and revisit it on February 9, 2016, at San Francisco City Hall.

All members of the press and the public that oppose Google's and Facebook's privacy rape of the public, and their misogynist anti-women, Ageist and anti-black hiring practices, are asked to meet at San Francisco City Hall on February 9, 2016. Anti-Google advocates are encouraged to begin assembly in the City Hall Plaza beginning at 8AM that day.

The public is asked to help voice it's continued disdain for these white, yuppie, self-centered buses that are too ashamed of who they work for to put their logos on their vehicles. These shuttles are bad for commuters, bad for pedestrians, damage the economy, expand political corruption, harm our environment, not to mention they increase traffic congestion.

Google & Facebook Buses Hurt Our Community In The Following Ways:

*** Per government investigations and public surveillance at bus stops, almost no women are hired by these companies

*** Per government investigations and public surveillance at bus stops, almost almost no blacks are hired by these companies

*** Per government investigations and public surveillance at bus stops, almost nobody over 30 and

certainly nobody over 40 is hired by these companies in order to keep their “Frat House” culture “pure”.

*** Per filed lawsuits, these companies abuse workers, psychologically manipulate young naive people with Google “mindfulness classes” and “group alignment thinking training” not unlike Scientology, fire workers who question the party line, sexually abuse and pressure interns and young workers for sexual services, have been murdered by prostitutes, promise workers upside that they know does not exist and spy on their own workers.

*** These buses support massive public privacy and data harvesting for nefarious purposes.

*** These buses represent and encourage corruption and organized crime by bribing Mayoral, Supervisor and Department bosses with cash, expense payments, revolving door job promises, stock warrants, sexual services providers, Super Bowl tickets, Super Bowl party invitations, Box seats at sporting events, free Internet search engine up-ranking and hundreds of other “unjust gain” payola bribes which only benefit the elected officials of San Francisco and hurt the public by expanded corruption. The owners of these companies are under international anti-trust, corruption, monopoly and bribery investigations and have been publicly charged, by the heads of multiple nations as: “Digital Mobsters!”

*** The plain white buses are offensive to many people from the Jewish Culture because they are reminiscent of the mass transportation of Jews, via generic buses with no logos, to death camps. In light of the covert intent of these buses and the mass harvesting of bay area youth via HR programming, members of the community demand that the buses carry their corporate logos in large graphics, visible from over a block away, as every other bus does.

*** Commuters are forced to funnel around the buses and, in a dense-pack city, this causes horrific traffic jams. For example, the Google buses, DAILY, create havoc by funneling, already congested Divisadero Street Traffic near Fulton and “Gas Station Valley” into a complete shut-down of the flow of traffic when the Google bus cuts off the entire right hand lane. These buses are a menace.

*** The driver turn-over is high and pedestrians are often not seen in time, by the novice bus drivers who do not know every intersection and pedestrian walkway. This creates a life-threatening danger for the many pedestrians in the City and simply adds more potential vehicles to hit pedestrians.

*** A waiting bus uses a tremendous amount of energy, space and emits a variety of toxins.

*** The Buses have encouraged City of San Francisco employees and contractors to lie to the public in order to get their bribes. By lying to the public and manipulating data in order to please their handlers, they are doing the same thing that Google does when it lies to the public to sucker them in with “free stuff” then data harvests them, and lies about how they use the data to please their handlers. Two wrongs do not make a right!

*** Google and Facebook try to get the cheapest labor they can get and import foreigners into the area to displace residents jobs. These companies have spent more money lobbying to get cheap foreign labor into the area, than most other domestic companies combined. It is inconceivable that Commuter Shuttle Program administrators would find this to be a positive feature for the economy of San Francisco residents unless those Commuter Shuttle Program administrators were being bribed to say that.

DON'T LET THE GOOGLE BUSES RUN UNLESS THEY HAVE THE SAME PERCENTAGE OF WOMEN, BLACK, OVER 40 AND AMERICAN WORKERS GETTING ON THEM AS LIVE IN THE BAY AREA

Let these people know that San Francisco and California are NOT FOR SALE!

(<http://www.californiaisnotforsale.com/>)

The companies, that these generic painted buses deliver the drone-like workers to, have the (federally documented) lowest hiring numbers of American, female, experienced over-30 and black workers in the Nation, yet they get the largest free taxpayer hand-outs in America. Can you spell: C-O-R-R-U-P-T-I-O-N !?

San Francisco politicians are paid bribes by Google and Facebook to run these buses. The only people that benefit, in San Francisco are The Mayor and San Francisco's new Commuter Shuttle Program executives when they get their campaign funding, golf memberships and free dinners at The Westin. After they get out of City Hall, they have been promised payola kick-back “revolving door” jobs in Silicon Valley with the very companies running these buses. These promised payola jobs are “BRIBES!” and they are felonies!

San Francisco has seen it's City destroyed by an influx of bearded, naive, idiots who work, like mindless robots, for the “most evil corporations on Earth”. Silicon valley can't house enough idiots to run it's privacy abuse shops so it tells the Bro-grammers to “*Go up and live in San Francisco, Don't worry about the commute, we will pick you up!*” San Francisco is being “culture-raped” by Silicon Valley billionaires who have zero concern about the indigenous people of the area.

Much has been written about Silicon Valley's “Rape Culture” but what does that term mean?

It refers to rich white men who were raised to believe that they had special social privileges because their parents, and fraternity houses, trained them to think that they existed in order to use others to meet

their needs for pleasure, power and money.

This concept of “White Elitist Privilege” is a passed-on concept of land-owner and factory-owner control created in the feudal times of old Europe.

The people who owned the land, and resources, acquired by organized European murder fests called: “land wars”; created a mythos which sought to trick those who did not own those things into thinking that the rich owners had special powers, or special wisdom, due to some magic in their “blood-lines”.

In fact, due to the rape of servants, cousins, townspeople and siblings, almost no “blood-lines” remained pure for long in the “nobility”.

One might suggest that, ***“if the townspeople were stupid enough to believe that some guy named Smith had super-powers because he was named Smith, then they deserved all of the use-and abuse that they were subjected to”***. This would be a Machiavellian, and harsh, assumption about people who were, essentially, brainwashed, from birth, to believe that the feudal Lord was better than them. As the CIA, and Google, have proven, it only takes a month of repetitive information iteration to brainwash the political, social or moral beliefs of any population.

In Silicon Valley the Joe Lonsdale rape case, the Ellen Pao Sex abuse case, The Ravi Kumar and Forrest Hayes Sex murder cases, The Stanford Frat house rape cover-ups, the Intern sex abuse scandals, The Stanford Professor's Sex scandals, The Silicon Valley Hooker parties, The Rosewood Hotel Thursday Night Sex Pick-up parties and hundreds of other twisted perversions, which involve a Silicon Valley VC, or Tech exec, abusing a lower income person are flowing like water down the tainted white water rapids of technology deviancy.

Google uses Scientology-type worker culture programming to turn starving 22 year olds into blindly obedient drones. They make their workers ride on their buses, eat their food, go to their parties with their co-workers in exclusive settings, read only Google approved news, use Google devices which track them, take a battery of CIA-created psychological hiring tests, go to “mindfulness classes” to become more drone-like and, essentially, become weaponized for Google's manipulations. The bank accounts of Google workers may be large, but their minds are empty and their ability to care about others is gone. Not only does Google turn helpless youths into robots but Google is spending more money than any other American company to displace workers with robots.

While being an intern, Stanford co-ed, or blonde divorcée, in Palo Alto, pretty much guarantees that you will face a gauntlet of high-tech date rape drugs, extortion, moral compromise and VC sexual exploitation, the rapes and social abuse do not end with the sex. All of the fraternity houses that the Silicon Valley VC's came from have now been charged with “rape factory” abuses. These men were raised as, and trained as, abusive animals, on every level.

BUT, Imagine having your brain raped!

The VC's buy the politicians, tax investigators, SEC officers and law enforcement agents that are supposed to stop them from doing their crimes.

These VC's have paid billions of dollars to Presidential, Senate, Gubernatorial, Attorney General and Mayoral campaigns, as bribes, in order to buy their way out of any law enforcement attention. The FBI should be stringing them up, but...for some special reason: they don't. This is the rape of America's

political system. It is a rape of the public trust of over 300 million citizens. Their bribes, to allow over a trillion of their tax dollars to be hidden overseas, rapes our schools of our teachers and rapes our streets of pot-hole repair. Are your local services being cut? Thank John Doerr and Eric Schmidt.

The Silicon Valley VC's have also formed a Mafia-like Cartel. This dark and spooky men's club came from the Skull and Bones, Bohemian Club concept of Omerta secrecy rich boys who sought to control things by only doing business with each other in order to commercialize the commercialization of monopoly creation. They do everything you saw in the Francis Ford Coppola "Godfather" movies except they wear more khaki and drive Tesla's instead of Cadillacs.

There is no other region, in all of America, which holds the title of misogyny, prostitution and sexual extortion capital of the nation. This fact is proven by the tens of thousands of articles, and complaints published about Silicon Valley's abuses; and about no other city in The Nation.

Ever since HP created Sandhill road, the Cartel was just white boys. Because those white boys made their profits out of flying clever, cheap Indians over from India, getting their ideas, then shipping them back to India, before they could make any stock claims, a few Indian VC's created a sub-Cartel. While they tried to play off their cultural "robes and temples" crunchy granola marketing, few missed the reality that India is the organized rape capital of the world. The Indian VC's turned out to rape even more than the White Frat Boy VC's.

The brains of the Silicon Valley rapist VC's have one big problem...

They have had decades of programming and training to run spreadsheets out to the smallest decimal point but they can't invent a good, creative, idea to save their souls. They are financial experts and ideation idiots.

To get the things that their Cartel wants to exploit, they usually steal their ideas. They rape the brains of others, often without paying for it.

They invite the idea people in for a chat, under the guise and pretense of: ***"we are thinking about investing in your idea.."*** In most cases, this come-on line is total ***horsesh*t***.

They are inviting you in to get you to give them a free data dump, your "pitch meeting" at their offices is their fishing expedition to see what they want to steal from you.

The odds are small that you will be wearing the IZOD shirt, khaki pants, short greased haircut and have the perfectly symmetrical square jawed Aryan look that the VC's have. They will hate you the moment they see you. You have been excluded from their club the second you walked through their door. You don't have the look. You didn't pass the ivy league "one-of-us" sniff test.

But you still have some power, you have the idea and the technology...for the last few minutes before you open your mouth.

They will say: ***"...now; we are all friends here. Tell us everything. We don't sign non-disclosure agreements but we won't steal your idea..ha, ha.. if we stole ideas, how could we still be in business.. ha, ha.."***

You just bent over and spread your cheeks for them.

They will, then, listen carefully to your idea, take notes, argue a few points to try to get you to do more of their homework and then thank you and tell you they will “*discuss it internally*”, which means they will immediately start organizing a thieving party if your idea had any interest for them.

All of the VC's on SandHill road, in Palo Alto, know each other and conspire and collude together, as proven in the “AngelGate”, “No Poaching”, “The Mike Chieky Attack”, “Sony Hack”, “HSBC Hack” and other scandals.

One VC steals the idea and passes it to another to copy it, rename it and launch it via one of their friends. YouTube, Google, Facebook, Ebay and many other famous companies were created this way. That is why the VC's poured billions into trying to bribe Congress to overthrow the patent laws. The VC's live in fear of paying the creators they stole from.

When they see a great idea that they want to steal, they hire their buddies at Wired, Tech Crunch, Gawker Media or Hearst Publications to write a hatchet job article, or series of blog postings that defame and character assassinate you, while denigrating your technology and saying that it is impossible for your technology to work. They do this to prevent any possibility of non-Cartel VC's from their Silicon Valley Cartel or the NVCA (essentially the same thing) from funding you and competing with their theft scheme.

Ironically, their total clone copycat version of your technology, that they deliver, works fine. Even though they said, in their slam articles, that it was impossible for it to work.

So they raped you, thieved you, used you and shut you down. Isn't Silicon Valley lovely?

In the Kliener Perkins sex abuse law suit, the Kleiner Perkins founder Tom Perkins “Nazi Scandal” where he called poor people “Nazis” for not supporting the rich, The Ray Lane tax evasion investigation, Kleiner's Vinohd Khosla beach lawsuit, the Steven Chu Cleantech Crash and Solyndra crimes, AngelGate, The Eric Schmidt Sex Penthouse and White House manipulation investigation, The In-Q-Tel funds and an army of other scandals; one thing is clear: Silicon Valley VC's have no respect for morality or the law.

Voters must demand that the state and federal government bring crushing investigations, and penalties, to these VC's and tech responsibility-dodgers because their crimes affect every single citizen. We can no longer let these crazy Silicon Valley billionaire megalomaniacs dictate the future of our cities!

Don't let the Google Buses run our cities over and flatten our civic culture.

Thank you to everyone who came out and showed their support Tuesday afternoon. We will keep you updated on future developments.

Silicon Valley Venture Capitalists Uncovered as Simply One Big Criminal Cartel

Silicon Valley Venture Capitalists Uncovered as Simply One Big Criminal Cartel

Special For ProPublica

Submitted by The Stanford Journalism Group

With research by Audrey W., Tom K., Leung V. and Martin F.

They operate exactly like the Sicilian Mafia. They have carved out turf territories. They take out competitors using illegal “hit jobs”. They bribe regulators, politicians and cops to look the other way. They hold secret back-room tribunals in restaurants, in order to arrange collusions, price-fixing, market rigging and blacklisting. They are the Silicon Valley venture capitalists, known in the local lingo as “VC’s”.

For quite a long time, top politicians have ordered their law enforcement agencies to “stand down” on investigations of people like Eric Schmidt, John Doerr, Steve Jurvetson and the tech posse known as “The Cartel”. That era of avoidance ended when John Doerr’s partner, Ray Lane, came under investigation for epic tax evasion and wise-guy money manipulation machinations. Tips from his case led to a network of others and case numbers, and investigators, were assigned.

VC Ray Lane’s audaciousness was not the only shiny object in the dark pit of Sandhill Road, the street where all of the VC’s huddled together like sheep. John Doerr’s co-founder: Tom Perkins, raised the glare of public scrutiny up to “11” when he loudly, and publicly, proclaimed that any poor people who didn’t respect him, and the rest of his VC buddies, must be “Nazi’s”. Yeah, he said that in the media! That didn’t go over well with the public.

In one of their many recent scandals, known as ANGELGATE, the VC’s met at a restaurant in San Francisco to have one of their secret mobster collusion meetings. Alas, a reporter had “snuck in” and documented the whole thing. This reporter: Micheal Arrington, got a honey-trap “hit-job” put on him by The Cartel for his trouble, as reported in Vanity Fair. San Francisco VC Ron Conway railed at the other VC’s, in social media, about how they had stupidly blown their covers. The scandal became one of technology industry legend.

The VC’s had another terrific scandal called THE NO POACHING SCANDAL. In this one, the VC’s including Steve Jobs and Eric Schmidt, all got caught colluding to blacklist any programmers from India from working at the other companies in their portfolios. They, essentially, made a secret deal to destroy the careers of tens of thousands of workers. It was incredible. Eric Schmidt, the head of Google, was personally caught arranging these collusions and blacklists. The evidence was so compelling that the programmers filed, and won, a class-action law suit.

As of today, VC Joe Lonsdale has had a glut of feature articles published about his rape and psychological manipulation of a young intern. VC Vinohd Khosla, John Doerr’s other partner, seems to be hated and sued by a large part of California for closing public beaches for his own whims. VC Ravi Kumar, of Tesla Investments and Forrest Hayes, of Google, were both killed by their hookers. A permanent undercover officer has been assigned to San Francisco International Airport just to try to catch the epic number of Hookers that the VC’s fly into Silicon Valley every week. The largest concentration of escort services in America is in Silicon Valley for the servicing of the VC’s. Type “Eric Schmidt sex penthouse” into any non-Google search engine and read the amazing number or

articles about the moral compass of that VC and Google boss. Google's other VC/boss: Sergey Brin, has an equal number of articles about a three-way sex romp between him and co-workers. John Doerr's partner: Ellen Pao, filed a spectacular sexual romp lawsuit against John Doerr's crew and it threw Silicon Valley into a titter. The list of indiscretions and outright illicit madness of the Silicon Valley venture capitalists is epic and record-breaking. Clearly, these people operate on a moral level two notches below a starving alley cat and Al Capone.

According to San Mateo county public records, the typical Silicon Valley VC has a divorce which has the word "abuse" in the paperwork almost 90% of the time. Almost every VC gets divorced. Most of them marry what is known as a "trophy wife". These women are always younger than the, almost all-male, VC's, deeply silicon-ed and surgery modified, fat-free and destined for 2.5 alimony-grabbing children and a divorce 3-6 years after they have served their purpose of providing "proper social optics" for the VC's. Proper social optics means that the VC's live lives devoted to appearance and not substance. The VC's wear khaki pants and pull-over shirts in order to try to say to the world "I am so rich I don't care". They drive Tesla's in order to showcase their douche-baggery on public thoroughfares and they go to TED Talks in order to proclaim their condensed-cream-of-philosophy superficiality to the world.

Hackers, including the notorious Guccifer, have gleefully plowed through all of their emails and the darkest deeds of these delightful VC's are now traded on the spookier portion of the internet known as "The Darknet". The hackers are not the only ones with the goods. Law enforcement is said to have physically broken into VC offices, most notably Kleiner Perkins, to support investigations. The jig is up! These days, that hot intern with the tight sweater, that just applied to work at the Apex Ventures front desk might be a skilled FBI agent from Arlington, VA. VC's are nervously looking at each other and wondering who just turned "state's evidence" in exchange for immunity.

On an average morning you will find the VC's breakfasting at Buck's Restaurant in Woodside, California. They meet to have daily deal rigging, black-listing and collusion confabs to make sure that none of the non-fraternity boys, or other outsider entrepreneurs, are sneaking on to their controlled playing field. You won't find any blacks, few women and almost no Republicans at these meetings.

A few brave reporters covertly sat in on these meetings, or in adjacent booths, with their carefully positioned iPhones sitting on the tabletops, recording all of the dirty deeds. The FBI loves that sort of evidence.

The VC's big Mafia is called The National Venture Capital Association (The NVCA) but local "families" have "turf" with sub-clubs assigned. Silicon Valley has a few sub-clubs: "The Indians", "The Rosewood Boys", "The John's" "Sigma Kappa FU" and other fun *fratty* high school-like names permeate the VC culture boys club. At their expense, the TV show: "*Silicon Valley*" took aim at the infantile games these deeply coddled mommas boys carried forward from their rich elitist dynastic upbringings.

Nobody that isn't connected to a 'proper' family is allowed in. Outsiders and Indian programmers are only given hall passes until the VC's suck them dry and then they are kicked to the curb with little, or

no, stock. Federal investigators discovered that, like the VC's, their Silicon Valley companies never hire blacks, only hire women as eye-candy or potential sex toys, and manipulate valuations to cut out all but themselves. After years of PR promises of "*We will try to do better*", not a single Silicon Valley company has budged on it's racist, elitist, age-ist hiring practices.

Almost everything they do is illicit. Most of it is illegal. They operate with impunity because they fund the campaigns of current elected officials. It is a crime on every level.

Every single thing that Al Capone, the Gambino Family, Madoff, HSBC, Enron and the Actual Mafia were arrested for, or charged with, these Silicon Valley VC's do all day long.

Anti-trust. Monopoly, Tax Evasion. Bribery. Prostitution. Product dumping. Conspiracy. Bribery. Collusion. Securities Violations. Commodity Rigging. Flash Boy hacking. Stock Market Manipulation. Possibly even murder.....These VC's do the crimes without ever doing the time.

Talk about "optics". How do the federal cops think this looks to the voters? How secure do average American voters feel when they see these guys running a muck without a single repercussion. It is stuff like this that could put a wild outsider like a Donald Trump or Bernie Sanders in the White House. Not prosecuting these bozos could take the entire American economy down by simply destroying American's faith in the American Dream and The System. (Ahem Mr. Comey...how are those indictments coming along?)

You can see how they get away with it. They simply send cash, girls, revolving door jobs, search results and company stocks to State and Federal elected officials and pay them off.

You can even see the direct financial paths from John Doerr to the Governors office. From Eric Schmidt's funds to campaign coffers in Washington DC. It doesn't take an FBI agent to run these facts down. Judicial Watch, Sunlight Foundation, Disclosure Project and hundreds of other public service transparency groups have done the work for you. It is glaringly obvious.

Over one thousand State and Federal law changes, contracts and policy alterations time out, in perfect synchronization, in the following corrupt formula:

- 1.) The VC's pay Payola to politician X
- 2.) Out of the blue, politician X suddenly wants to change a law that happens to only benefit one group
- 3.) The one group that gets the benefit is the Silicon Valley VC's.
- 4.) Politician X, or their family, suddenly receive stock from a company the Silicon Valley VC's own

That is overt crime!

This is the big crime game that Kleiner Perkins, Google Ventures, Draper Fisher and the rest are playing. By ordering politicians to hire their staff and put their employees in charge of Government offices, they are rigging the game worse than a cheap Vegas card shark. These guys are playing the Super Bowl of corruption.

The Silicon Valley VC's will cut down any programmer, competitor or outsider who dares to step on

their turf. They will cut them down illegally, illicitly and with wrath and maliciousness...just like on Toga Night at the frat house. They use Microsoft VC software, gust.com, Venturewire, Gawker Media, Axiom and a host of covert on-line databases to put secret codes and “kill phrases” next to entrepreneurs, and companies, who have technology that could put one of their companies out of business. It is called “Black-listing”.If you don’t know what Blacklisting means, see the feature film called: “*Trumbo*” and you will get the picture. It is a covert order to terminate a person or a brand.

Where is the FBI, the SEC or a Special Prosecutor in all of this? Is Obama ordering them to take no action because the crimes will lead right back to The West Wing?

With such crimes now overtly obvious to the main-stream public (Thanks to Mike Judge) a strange phenomenon has emerged: Payback from the public.

Whether or not the FBI gets their man, or men, the arm of justice seems to have many fingers.

Numerous newspaper headlines and pundits are currently screaming about the “Coming 2016 Recession”, “The end of Capitalism”, and showing us bright graphics that invariably include the word NASDAQ with a bold red line diving towards the lower right corner of a chart. The Silicon Valley tech market is SCREWED! The world seems to have given them the finger, shouted them down for their horrific privacy abuses of the public and said, with great emphasis, that nobody gives a flying toot about Tweeting their daily routines to a bunch of trolls and meat puppets.

It was as if the entire planet cried out in one voice: “**TO HELL WITH YOU SILICON VALLEY**”
