

Why Taxpayers Should Sue Google

You should sue Google on behalf of yourself and the hundreds of millions of American's Google has lied to, manipulated, defrauded, hid the news from, election-rigged and cyber-stalked. Google is pulling political strings to blockade your legal right to have any case heard in front of a jury but they can only delay the inevitable. Together we got the criminally corrupt Eric Schmidt to "step down" from Google but he is still out there operating his schemes and political horrors. He must be targeted for the rest of his life for what he did to America.

Over 400 Google shills were placed inside of state and federal offices in order to try to shut down any disclosure of Google's corrupt and illicit actions. This is not theory. It is fact. We have the names and HR data for each person and it will hold up as evidence in the court room. Google has expended tens of millions of dollars in bribes and illegal activities. Now it is time to shut Google down.

"That is not how America works, Google. You do not get to commit these crimes and get away with it Larry Page, Eric Schmidt, Jared Cohen, John Doerr, David Drummond and your other corrupt billionaire buddies!"

The proof of these criminal actions by Google owners, executives and investors has now become available.

Recent document leaks and ex-employee whistle-blowers have confirmed these crimes by Google.

You are advised by federal law enforcement, community legal groups and Constitutional law experts that you are entirely free to use any legally obtained evidence that you find in public view. It does not matter if it comes from DNC insiders, Wikileaks, Google's own employees, or Russian diplomats. It is now entirely legal for you to use anything you legally find on the internet or in public statements that demonstrate Google's corruption.

In fact, though, you do not need any more evidence than what you already have **from public news media**, to put Google senior staff in prison. New leaks double-down on the criminal and civil charges already made against Google. The FBI, GAO, FTC, SEC, FEC and other law enforcement and regulatory agencies know these facts to be accurate.

Google has always had, and today fully has, total control over the text, links, results, adjacent results and all positioning of each and every Google search result and mnemonic impression
