The latest batch of the Podesta emails shared by Wikileaks add a darker dimension (if it was even possible) to the sordid culture of corruption, lies and depravity that surrounds Hillary Clinton, explaining why the FBI has been calling her for quite some time now, **the “Antichrist personified”**.

It is a possibility that Hellary’s clique attends and organizes Satanic rituals, involving mock-up scenes of cannibalism and sexual abuse involving children.

One of the emails directed at Tony Podesta (John Podesta’s brother) contains the following sentence:

“I am so looking forward to the Spirit Cooking dinner at my place.

Do you think you will be able to let me know if your brother is joining?”

This really does not sounds like much until you discover the author of this invitation.

## **She, who walks in the footsteps of the Beast**

This is the woman who sent the email, Marina Abramovic.

*Dressed in red and holding the skinned head of a dead goat, a clear reference to the occult character Baphomet*

---

There is proof that the **Clinton Foundation directly transferred Abramovic ten thousand dollars** in at least one instance for her “services.”

*Abramovic carving a pentagram in the flesh of her stomach with a blade to show her artistic side*

A self-proclaimed artist, Abramovic hails from Serbia and regularly organizes “performances” and events using what she calls “Spirit Cooking”.

This “spirit cooking” includes mixing semen, breast milk, urine or fresh blood before consuming it or splattering it over various things such as life-sized representations of young children, like shown below:

This performance included spelling with the body fluids,  
the following stanza:

With a sharp  
knife cut deeply into the  
middle finger of your  
left hand  
eat the pain.

Other examples of her “art” (nowadays any revolting expression of bad taste if sporting the correct pair of problem glasses) include public dinners, where politicians, Hollywood stars, singers and decision makers gather to eat cakes that depict a naked human corpse or feast on the fake (I hope by all that is sacred) blood contained in a coffin where swims another human body.

*Celebrities that use demonic symbols in their persona such as Lady Gaga rush to participate to Abramovic's events*

*Another heavy user of the occult symbols, Jay-Z, is a big fan of Marina*

These codes are all directly copied from rituals such as black masses or Sabat night reunions and popularized by figures such as **Aleister Crowley** from whom Abramovic draws direct inspiration.

It is part of this growing phenomenon where the elites and celebrities close to power get caught, intentionally or not, showing symbols celebrating the ancient Babylonian rites or the worship of the Devil.

*On November the 4th, Clinton chose Jay-Z in a last bid to draw crowds to her empty rallies. Coincidence?*

**Innocent children involved in that mess**

There is hard evidence that Bill Clinton traveled at least 26 times (sometimes without his bodyguards, it is all in the pilot logs) to **billionaire and convicted pedophile Jeffrey Epstein's Island** on board his plane, dubbed the "Lolita Express," as it is in this plane that the guests could allegedly have sex with minors.

With this in mind, it is disturbing to notice that other Podesta emails refer to children as being the "entertainment" at pool parties almost entirely attended by middle-aged men involved in politics.

Other emails involve strange references to food such as “pizza”, “cheese”, \$65,000 worth of “hot dogs” for a party that attendees “dream of” and “recipes” that many sources suggest are code words for orgies involving minors and extremely young children. You can read more about it [here](#).

 obama\_pizza\_hotdogs\_stratfor

The Whole Clinton Bag of Crooks reeks of unnatural sexual behaviour and reproachable acts and we will certainly know much more in the days to come, as Hillary Clinton is still under FBI investigation as we speak. This follows the scandal surrounding Huma Abedin (Clinton's right hand and confidant) and her estranged husband, sex offender and champion one-handed texter, Anthony Weiner.

It will take some time before they go through Weiner's 650,000 emails and decide of a course of action regarding

these dark revelations and other atrocities of the Clinton crime family.

## **La plus belle ruse du diable est de vous persuader qu'il n'existe pas**

*Drawing by Ben Garrison*

These heavy accusations of Satanism remind us of the sexual blackmail practices said to take place among the popular hip-hop and Hollywood communities, as **Roosh described in his related article**, or other rumours linked to suspicious reunions involving the secret ceremonies of the elite such as the ones of **the Bohemian Grove** or the Rothschilds' parties of the 70s.

If those recent speculations turn out to be true, it could have the effect of a bomb and mean a revolution.

Observe the symbols of cannibalism, eerily similar in the three following pictures. Those are respectively: a scene of the Rothschild's "surrealistic bal," a painting hanging in John Podesta's office and one of Abramovic's dinners:

hqdefault

I will let you be the own judge of the conclusions inspired by those images. My father is a very Cartesian fellow and a saying of his comes to mind:

Just like Saint Thomas,  
I only believe in what I see.

And what I see unsettles me.

What happens if Hillary, Obama, and all these so-called "leaders" of our country are found out to be pedo's? Will the FBI or Justice Department do anything or merely look the other way? I believe they already know and have known for eons. If you look at the decisions Obama has made during his presidency in the realm of satanism you'll

connect the dots. One of the worst things Obama did was give Iran billions of dollars knowing they would fund terrorists with it. You see, Satan and God are real. They are forces that cause people to do good or evil. Disagree all you want but someday there won't be any atheists.

\*EDIT\* The post refers only to Marina Abramovic.  
For this sole case you are mistaken, she is just a gentile witch, Abramovic is skippy only for Ukrainians, Russians and Bellorussians, for Serbo-Croats doesn't mean anything. She is though daughter to commie parents and is located, by emigration to New York. All these say a lot.

Do not ask me why but Serbs had a very radical left which makes most of their culture movies quite horrific, their idea was that the Russkies with their conservative values regarding society and sex destroyed true communism there is a movie called: "W.R. mysteries of the Organism" it glorifies some pseudoscience about sex the aforementioned idea was also put to that film.

I need to also add that Serbs are a very religious, conservative and Christian nation, how they provide some of these deplorably sick in the mind humans is beyond me.

Of course I did my research, and there is no tangible evidence of her jewish origins but:

1. Lastname: If your lastname is Rothschild, there are probabilities of 99% that you are not basque. Besides, commie partisan parents?

2. Physiognomy: jewish nose? check. bended back? check. Just look at this

3. ACTIONS: this is the most important indicator in this case; involved near the circles of powers but somehow behind the scene? check. Decadent art? check. Aberrant practices? check. Aberrant practices linked with occult doctrines? check. I know the Tribe, this is one of them, believe me.

According

to Wikileaks, John Podesta has received an invitation involving his

brother Tony Podesta and Marina Abramovic.

This is what Abramovic wrote

to Tony Podesta: “Dear Tony, I am so looking forward to the Spirit

Cooking dinner at my place. Do you think you will be able to let me know

if your brother is joining? All my love, Marina”.

The recipe is

supposedly “mix fresh breast milk with fresh sperm, drink on earthquake nights.”.

I have always wondered about the Serbian radical left. It seems to contradict the very conservative religious tendencies. My thinking is that Serbs just tend to be very radical and extreme in all things. I have never met a Serb that wouldn't pretty much murder you with his bare hands over every thing he believed, not matter how big or small, no matter what side of the spectrum it is on.

“Did you just say that Pljeskavica is originally from Bosnia?????? I will kill your children” –Serbian (probably at some point)

I believe that this is essence of the Balkans Bulgars also had and I think still have a thing with heresies and cults of that type.

Still for the Serbs I believe you are right, but it still baffles me, there are radical leftists that do not move to these places for Serbia to create so many is weird, probably it had or has a base for such at a place in it (like Thessaloniki makes liberals, or New York etc.)

Being red-pilled I still found this hard to believe that such spiritualistic hog-wash was still really believed today. It is possible so that the Frankism (a Deist cult) might (what we say is probably just an influence of it, or and some common practices which could be found also in some medieval heresies) be well alive today (they were behind the Jacobins

in the French revolution, they were known also as Robespierre's cult) the cult recruited members and had them participate in a variety of unknown rituals one of them looked akin to spirit cooking, although this horrific liquid was consumed. For sexual practices pedophilia was ceremonial.

In truth though, if a member wanted to leave the cult the other members would expose their wrongdoings, having evidence for them, condemning them and protecting themselves. Needless to say Evola's occult war is now proven to be a correct term, so what we truly face are satanic powers on an unprecedented scale. I suggest reading some theology and specifically some daemonology, This has religious roots in the end as it is pretty close to complete proof. Also for the modern left a good writer is Eric Voegelin, a man who traced it's roots to some medieval gnostic cults.

My grandfather was a Knight Templar. People think the Templars disappeared a long time ago – not true. They worship Baphomet, up top. Ancient Egyptian “mythology” factors heavily into their beliefs and practices. So what is on that website to which you linked, resonates with me.

You might be interested in the articles at this point

you might be interested in the articles at this next link, which highlight the Marc Dutroux case. After a person absorbs most of that material, it's pretty close to impossible for them to think ritual murder and pedophilia aren't practiced at the highest rungs of the societal ladder –

This is some pretty far out shit. I will say that even though

Bill Clinton isn't on the ROK roster of most loveable guys, we really ought to be careful when we launch charges of sex tourism. I know that a lot of things point that way but I think when we make charges like "rape" or "sex tourism" or "underage girls" blah blah blah that we have a responsibility to be damn sure or we tread on very hypocritical grounds. I think there is plenty of other shit we can call Bill out on without having to resort to the sensationalism of sex charges.

The other thing: Bohemian Garden and Skull and Bones's Deer Island retreats are things which really are blown way out of proportion I think.

There are quite a few ifs and maybes and looks likes and seems to bes and mights here. It isn't about being libelous. No. I am not even saying that you are wrong. Hell, you are probably right. But I think here especially.....when we start lobbing charges painting someone as a rapist....we should have a very high standard for burden of proof. Further, there is plenty of evidence to show that these people are absolute criminals. Why latch on to things that involve a lot of conjecture when there is proof positive stuff out there that is just as bad.

November 8, 2016

It just seems that you can very easily point at Hillary and say there is an actual body train as well as pretty brazen corruption. That should be enough. When vaguely supported claims based on conclusions drawn about satanic ceremonies and baby raping come out that is exactly the kind of stuff that makes it easy for people to Roll their eyes and ignore you. Even if it is true, you have to think....what is the goal here? Because if the goal is to give people who already hate Hillary dick spanking material....well, mission accomplished. But if the goal is to get undecided or even Hillary supporters to really think long and hard about what a terrible cunt this woman is....well stuff like this is a big fail because they will look at it, write it off as stupid lunacy and tin foil hat garbage and most sensible people will agree

If those satanic stuff is true, it have to go public! I agree with you that we should not rush on conclusion and make precipited charges, but if something like this comes to be

true we have to show to the public how depraved those people are. If there is proof, people will not have choice but to accept the truth, no matter how absurd it may be.

Your skepticism about all these cult stuff is understandable, but don't underestimate the possibility.

0 0

**Hipponax (μητροκοίτης)** November 8, 2016

I agree 100% and I am not underestimating the possibility at all. I just feel there is a time and place for this stuff and when it gets out there in the most sensational way possible and the evidence requires a lot of mental gymnastics it probably does more harm than good. Stuff like this will serve to make people numb to the charges so if you wind up one day with real hard evidence of this stuff it will just get lumped together with all the conjecture and blown off by most people.

yeah. But rich and powerful people who go to a 3000 acre retreat once a year to act like assholes away from the public eye after day in day out of dealings at pretty much the highest stress level imaginable don't surprise me. Dancing around and burning effigies. Whatever. It sounds like the kind of fun that wealthy old guys would have. As for collusion. Of course there is collusion. Especially with the skull and bones guys. People who think that that is some crazy kind of cult always make me laugh. Yes, young men from affluent families who excel social, academically and athletically at Yale University tend to do very well in business and government or whatever they decide to apply themselves to and when they look for people to work with they look to their own in group, like everyone in the world, and people they have known since they were teenagers.

One of the centrepieces appears to be the cremation of care ceremony. Consider the passage below. We are supposed to believe these people are nervous types who cremating their 'worries' rather than any kind of conscience or compassion. Problem is most of them are known for acting like complete sociopaths. Perhaps it really is care as conscience and compassion than they are cremating and in doing so they are enabling themselves to author mayhem rather than simply get through the pressures of being the nations leaders. If you have to make tough decisions on an everyday basis it helps not to give a monkeys about the consequences. Should we necessarily give them the benefit of the doubt? Alternatively maybe both meanings are available and attendees can choose which they prefer

“The ceremony involves the poling across a lake of a small boat containing an effigy of Care (called “Dull Care”). Dark, hooded figures receive from the ferryman the effigy which is placed on an altar, and, at the end of the ceremony, set on fire. This “cremation”

symbolizes that members are banishing the “dull cares” of conscience.[14] At the time the script was developed, the primary meaning of the word ‘care’ (< O.E. cearu, "anxiety, anguish") was synonymous with 'worry', having more negative connotations than in modern times when it tends to be associated more positively with compassion"

You know what's more powerful than the spirit of the Devil? A 9mm hollow point to the head.

The world if full of sick shit and perverted souls with depraved minds who commit heinous crimes against other humans. It may be more prevalent among the rich and powerful simply because they have the means to afford more than bud light, football and pizza for entertainment. It's been that way since the dawn of mankind and will be that way until we are extinct on this earth. So what are you going to do about it?

The solution seems so simple. Yet for all the screaming

THE SOLUTION seems so simple. Yet, for all the screaming about the occult practices among the rich, powerful and famous, I don't see a corresponding number of assassinations, or at least earnest attempts to rid the earth of these scum. Are people waiting on the wrath of the Almighty to send some wasting plague or violent death upon such people? If so, why hasn't it happened? Why does this violence against children continue? What kind of God is that? Maybe it's all just mystic nonsense.

I read about this kind of bizarre perverted lucifarian crap constantly on forums like GLP. Now it's come to RoK! Between bread making tips and the bleeding-butt bugged boys of the Bohemian Grove I'm at a loss as to what RoK has become. I'm not sure I'm using my time wisely coming here and reading these articles any longer.

Sure, pedophiles running with the Clinton crowd may be reason number 179 as to why she's unfit to be considered a human being, much less be President. But if all the other glaring reasons with their prima facie evidence supporting criminal indictment and conviction aren't enough for 49% of Americans to vote for Gary Johnson (if they can't stand trump) then what's the point? Does this knowledge change anyone's mind on Hellary, Billy Bob, or anyone who's in power? The short answer is no. If these are the types of people that are getting voted into offices of power and influence, then maybe the problem is more about the sheeple who ignore such stories, and the masses who refuse to do anything about people such as these.

Maybe, maybe not. I tend to be sensitive where sexual allegations are concerned as, I would imagine, should all people here at ROK. We no longer live in a world where any charge of rape (violent or stat) can be taken seriously and without a very big grain of salt. There is plenty implicating Clinton to corruption, to murder, to money laundering.....it is all pretty

clear that he is a bad guy...so why bring this other stuff in. As for the girl...I don't know, 15, 18. Can't tell. Unless you have proof that she is under 18 and proof that BC fucked her while she was under 18 then saying he "probably" did just adds to an anti male culture where people scream rape because they have nothing else to say. Fortunately (or not) in the case of BC there is plenty of other things to hold him accountable for....stuff that can actually be proven.

0 0

## Wrong\_Century

November 8, 2016

I did put 'probably' but amended to 'I'd imagine so' within seconds. The would-be First Gentleman is known to be a real horndog, the latest story discusses his love for massages and footrubs from interns at his presidential library and plans for nude pool parties on the roof.

This article is discussing high level pedophilia. BC's link to a billionaire pedophile and visits to his private island are right on topic. I would bet he wasn't there to eat conch.

The raid on Epstein's Palm Beach home found hidden video cameras and recordings.

Anonymous has claimed there is a video of BC having sex with a 13 year old. (They claimed it would be released imminently, but it's a little late now.) Interestingly, Epstein is Jewish and has ties to Zionists, his ex-girlfriend and alleged procurer Ghislaine Maxwell is the daughter of an alleged Mossad spy, the whole

I read the NY Post review of the Klein book. It comes off as smarmy sensationalistic lies intended to sell books. I really don't buy it. As for Epstein he is a real creeper for sure. If there is video of BC having sex with a 13 year old girl then he should be held to account for it. What we have no is that someone anonymously claims that there is a video of BC having sex with a 13 year old girl. There is a very big gulf between a video of this and an anon claim that said video exists with no proof. We are still working on innocent until proven guilty right? Bill Clinton was president of the united states for 8 years. He has links to everyone. I have yet to see any compelling evidence here. Just conjecture. I don't like the guy but at the same time I am not going to jump in on the lets crucify him for sexual dalliances that may or may not have happened based on a lot of assumptions, hearsay and anon claims. Trump for the Ronnie Reagan miracle upset. Carter was up, what 11% in the polls, on Election Day, in 1980? Something like that. The media and government (one and the same entity there) will have zero credibility left if Hillary “wins”. Thus, Trump will pull it off. The people will settle down and celebrate. Revolution aborted, mission accomplished. “Our vote matters” is back in place. With a Hillary win, people will realize it’s all rigged, even the non-conspiracy types (if they voted for Trump, which probably 2/3 of the people will be doing today), and they will seek retribution in one form or another. And we can’t have that – Trump for the win.

There are pretty strong and consistent rumors here that the rank and file FBI is nearly in

revolt over Comey and how he's been bought off and apparently is working for Clinton and Obama. They staked a lot on their reputation for impartiality, and Comey has utterly torpedoed that. There have been a lot of resignations and early retirements in protest, and the ones who remain are livid. I wouldn't be surprised if we start seeing some real, real nasty "leaks" soon that do more than hint at normal illegal activities. I mean leaks like "Hey, look, Hillary ordered the murder of...". I hope that this pans out, in any event.

It is my opinion everything from wikileaks and other sources has come out of the deep state. No Russians or hackers required. It's the government's own spying mechanisms that really got up to scale on Bill's watch biting Hillary in the ass.

With all enforcement being selective it's likely Wiener, being the easily lured dufus he is, was

used to have an excuse to release more emails.

So I was thinking about the spirit cooking and I feel that where the invite went wrong is that there really is three distinct groups of culinary perversion here. I assume anyone on any politician's staff would be totally down for some blood, sperm or breast milk. Most of them would probably be down for two of the three. But even if you do find one who'd be into all three they'd probably not want them at the same meal. That is some British aristocracy level extravagance there.

use sneer all the time e.g. this article itself “La plus

## GhostOfJefferson

Argumentum tu quoque.

Whether Satan exists or not to \*you\* is irrelevant, apparently he's real to these Elitists. Whether you believe in Satan or not, what he represents is murder, mayhem, evil, pedophilia, rape (the real kind) and death and destruction. That the Elite worship these principles should concern anybody, whether "atheist" or not. Yet you go for the typical atheist "I'm so enlightened and you aren't" sneer instead of looking at the larger picture. Take the name "Satan" out of it entirely and replace it with the concepts I just noted that he stands for, and now assign it to the Elitists. Now are you concerned?

0 0

**John Sanders**

November 8, 2016

It's what they're used to. Cultural "taste" is more a measure of popularity than of intrinsic value, in times when "money" passes for ethics (or its lack).

As with other things, the moment you accept someone to value you/your possessions for their criteria, game over, you lost. A bird drawn by Picasso \$1 million. A better drawn bird by your nephew, \$0,10. The signature IS the art/value. Who says the signature has value, has power. This is the "system", as enormous, as fragile it would be if more of us understood how it works.

0 0

**UnreconstructedConfederate** November 8, 2016

At this point I'm beginning to believe the system is beyond my humble understanding.

0 0

**John Sanders** November 8, 2016

Not that difficult. All they want (the "narrative") is to have the monopoly of "value". So, concepts like nation, race, family, religion, even objective merit, are deemed worthless. "unfit", as they call Trump. First, Donald is "unfit" for presidency. Then, your local schoolteacher is "unfit" (he said something against feminism, for example). Then, one day, the question is put directly to you: Obey and be fit. Disobey, and be "unfit", "deplorable".

It's tyranny, and people are buying it.

Thunder. Enter the three Witches

First Witch

Thrice the brinded cat hath mew'd.

Second Witch

Thrice and once the hedge-pig whined.

Third Witch

Harpier cries 'Tis time, 'tis time.

First Witch

Round about the cauldron go;

In the poison'd entrails throw.

Toad, that under cold stone

Days and nights has thirty-one

Swelter'd venom sleeping got,

Boil thou first i' the charmed pot.

ALL

Double, double toil and trouble;  
Fire burn, and cauldron bubble.

Second Witch

Fillet of a fenny snake,  
In the cauldron boil and bake;  
Eye of newt and toe of frog,  
Wool of bat and tongue of dog,  
Adder's fork and blind-worm's sting,  
Lizard's leg and owlet's wing,  
For a charm of powerful trouble,  
Like a hell-broth boil and bubble.

ALL

Double, double toil and trouble;  
Fire burn and cauldron bubble.

Third Witch

Scale of dragon, tooth of wolf,  
Witches' mummy, maw and gulf  
Of the ravin'd salt-sea shark,  
Root of hemlock digg'd i' the dark,  
Liver of blaspheming Jew,  
Gall of goat, and slips of yew  
Silver'd in the moon's eclipse,  
Nose of Turk and Tartar's lips,  
Finger of birth-strangled babe  
Ditch-deliver'd by a drab,  
Make the gruel thick and slab:  
Add thereto a tiger's chaudron,  
For the ingredients of our cauldron.

ALL

Double, double toil and trouble;  
Fire burn and cauldron bubble.

Second Witch

Cool it with a baboon's blood,  
Then the charm is firm and good.

THE WITCHES' CHAUCER. THE WITCHES' CHAUCER. THE WITCHES' CHAUCER.

Enter HECATE to the other three Witches

HECATE

O well done! I commend your pains;  
And every one shall share i' the gains;  
And now about the cauldron sing,  
Live elves and fairies in a ring,  
Enchanting all that you put in.

Remember Marc Dutroux, the Beast of Belgium (or whatever they called him). Busted for pedophilia, child abduction, murder, etc. In Belgium, when all of that was coming down, the Belgian people were ready to storm the gates of the halls of power and start lynching people. Because they found out that Dutroux was directly tied to the Belgian elite; it was common knowledge among the people that the elite were involved, and Dutroux was supplying the royals and other high muckety-mucks with little kids. So the elite finally gave up Dutroux and his henchman (forget the guy's name), but saved their own asses. This type of thing is commonplace, I'm afraid. Once you have researched it in depth, you'll figure that out. And

if you don't...well...it's uncomfortable stuff to say the least, and I wouldn't blame anybody for turning a blind eye to it. Won't change anything, even if you research it. But this kind of stuff has been going on for a long, long time.

It's alleged they had organized 'pink ballets' for royals and VIPs to molest female kids. Police attended too, 'just to keep an eye on things'.

People got so fed up at the revelations they dressed up in white and marched in millions in protest all over Belgium. Nothing changed though.

In the UK after the demise of Jimmy Savile much has come out about organized pedophilia, however again little has been done. The current head of state Teresa May was in charge of the child abuse inquiry (coverup) for a while.

If Trump wins, if these stories come out, 'draining the swamp' will be difficult and pit the US against UK and EU 'pedophocracy'.

It's funny you should mention Dutroux & Belgium . The first time I read about Hilary being a literal high ranking witch priestess was in an article on Dutroux and an evil place called "The Mother of Darkness" castle in Belgium . Supposedly there's an inner cathedral there where child abuse & sacrifice was carried out . Apparently one of the defining characteristics of the room is that it is illuminated by 1000 small lights, and George Bush Snr actually made a veiled reference to it in a speech when he referred to "a thousand points of light" . The rabbit hole goes deep ..

Everyone says “ooh it’s just teenagers”. No it’s likely the local mayor and his backers in suits with hoods, the machine elites crouching in the corn fields eating blood in the areas where there isn’t a convenient temple around. Also the bug eyed Igor sidekick butt-buddies to the elites show up. Elites have kept slave servants and snitch workers in their communities. The real uncle tom house niggaz are the schlubs of any race who lick the elites’ anuses. And the community snakes who are on the ‘inside’ with the local corrupt prosecutors office too. They’re all there in the corn fields. BUNCH OF SICK elite tripe from hell. None of the satanic clowns are patriarchal. They’re bitch goddess (Eastern Star) worshippers. And circumcised foreskin-bloodsucking dickchoppers. It must end.

THE DICK is master. PUSSY is no man’s master. The oozing hot flashing flaming scorned hole from hell that doesn’t produce must STEAL and (zip it) Pussy must be

doesn't produce must SIFU and zip it . Pussy must be contained and regulated by patriarchal DICKDADDY. The patriarchal hammer will come down soon on the bitch beast. And the spiritual bitch force emanating from all the wild yapping flapping 'loosed' pussies upon our great green orb will evaporate. The evil satanic baby-eating bitch forces in the world will be blown into space. The forces will be blown off our Earthly turf but our women will be kept here with us, loyal and allegiant to DADDY DICK.

ALL HAIL THE DICK.

Hail the patriarchy.

Spiritual bitch forces will be blown away much like the reeking odor of a douche pail is blown away when KING DICKDADDY aims a leaf blower at it, blowing all the contents, tampon wrappers and all along with the permasmell, and they all go flying OUT THE BATHROOM WINDOW. Amen. Chhaupadi yes. Trump too.

Just got back from the polls.

1. Huge amount of white males there when I walked in. Uncharacteristically huge amount. Like we owned the polling station. My wife went a few hours earlier than me and reported the same thing.

2. For POTUS, the machine had Hillary at the tipy top of the list and Donald at the very bottom, behind every third party candidate and only above "Write In". Yeah, I'm sure that's accidental.

3. Funny observation about where I live – Of the 13 races outside of POTUS, only two had Democrat challengers (for House of Reps and Senate). Every other office, at the state and local level, had no Democrat on the ballot. When people say Ohio can "swing Democrat" I can't help but laugh at how stupid that is when I hear it. Yeah, sure. Cleveland maybe. Heh.

Good to know, my friend. I figured it was going Trump's way. However...they are talking shit on CNN about Cuyahoga County and how it's leaning hard to the Democratic side. If they steal Ohio again, it's gonna get ugly. And fast. Which is why it's gonna be Trump for the win! (They have to make it look really, really, really close though...)

**GhostOfJefferson**

Cuyahoga County = Cleveland = Already known for actual real life rigged elections from 2012.

They better rethink that shit if they think that they're going to give us "100% Hillary!" counties like they did with Obama, which were demonstrated to be utter lies.

This just reinforces my idea of neutering the big cities at the national level.

0 0

**Bob Smith**

November 8, 2016

I don't think they have the balls to steal this one. They have too much to lose (as in control of the populace). People know where the super-rich live. They know where they work. And they are tired of this bullshit. If people find out their vote doesn't matter this time, it

will be obvious that the vote was rigged. Then they'll have nothing to lose. Thus...Trump for the 11th hour win. It's the only thing that makes sense.

**La'darell Luthor**

0 0

**Bob Smith**

November 8, 2016

True, but I think this is a different scenario. The media has shoved Hillary in everybody's faces and made her out to be the only person worth voting for, while they simultaneously excoriated Trump. The Comey affair makes it look like Hillary is dirty, but the FBI gave her a free pass. And that's far too over the top for people who think they live in "The Land of the Free". An idiot can only stand so much corruption and torment. And this will mean blatant corruption, on all levels, in-your-face type, neener-neener-neener type, if Hillary wins. This will mean the vote is obviously rigged and the elite are merely taunting the public. So it's Trump for the win. Instant belief in the system again. Egg on the faces of the insane media and the smug pollsters and pundits. A Brexit-type victory.

0 0

**La'darell Luthor**

November 8, 2016

It'll take us running out of things like food and toilet paper, or clean drinking water, before we get to the point of no return. There's obvious examples of blatant corruption and rot in the system, yet people aren't to the point where that'll matter. Not even close, really.

I lived in a place where their vote was fixed. The people came out and protested, and the government cranked down. The people went away, and it was all done with. Why? Because none of those people were starving.
